MANUEL LEAL NIC ROYALISTS

R. B. BENNETT, COUNSEL FOR ROYAL BANK, ASKS NON-SUIT IN WATERWAYS ACTION

PORTUGAL SENDS HER TROOPS TO OUST THE MONARCHISTS

PORTUGAL ON VEIGE OF A REVOLUTION

Minister of War Resigns and Parliament is Summoned for Special Session—Ex-King Manuel Leading Royalist Troops and Will Enter Portugal Tomorrow

Madrid, Oct. 9.—A report was received here today to the effect that ex-King Manuel of Portugal had landed with a number of officers near the Portuguese frontier and will cross into his native country shortly at the head of 4,000 troops, all of whom are well armed. The monarchists have met with slight reverses in all of their battles to date, but the coming of their former king has not courage into the hearts of the soldiers, and it is expected a battle will take place in the northern part of the empire shortly.

The resignation of the minister of war and the summoning of parliament in special sessions indicates that the government is not aware that the revolution has assumed gigantic proportions. Troops are being prepared for the field and already several regiments are en route to the frontier in the hope of driving back the monarchists.

To date the cabinet has paid no attention to the protest registered by Portugal respecting the entrance of armed troops over the Spanish frontier and this is looked upon to indicate that Spain would welcome the reascension of Manuel to the throne of Portugal.

Skirmishing Near Vinhas. Lisbon, Oct. 9.—Considerable skirmishing is reported around Vinhas and it is said that the monarchists are endeavoring to concentrate their forces at one of the small towns. The Duke of Oporto is believed to be in the vicinity of Tron, Spain, in his way to join the royalists.

Minister of War Pimenta Castro, has resigned his office. The government has summoned parliament to extraordinary session in order to secure the consent of the parliament to certain measures for the speedy trial and punishment of the conspirators in the attempted revolution. In an interview Premier Chagas declared that the republic up to the present had treated the monarchists with forbearance but henceforth no indulgence would be shown. The country he said, could not be at

DETECTIVE FACES BIGAMY CHARGE

IS ARRESTED BY MONTREAL POLICE—BELIEVED TO BE UN-BALANCED

(Western Associated Press.) Montreal, Oct. 9.—Charles Griffith, bigamy charge, was arrested by Montreal police last night. Griffith, 38 years of age, was married three times and has been in the hospital for insanity.

Manit, it is charged, was married three and a half years ago in one of the Methodist churches in this city and was living with his wife at 408 East Laurier street, only a block from St. Michael church, where he was married Thursday morning by the Rev. Father Louis Gallagher, pastor of the parish. To Miss Agnes Gallagher, daughter of Mr. Daniel Gallagher, of 275 St. John street, with whom it is said he had been keeping company for some time and to whom he became engaged a few weeks ago. In order to marry Miss Gallagher he professed the Roman Catholic faith and for the past few months had been posing as a priest. Father Gallagher, however, was brought up in the arrangement. His family are of the opinion that he is mentally unbalanced.

ITALIAN PROCLAMATION PUTS END TO SLAVERY IN TRIPOLI

A Group of Turkish Officers Taken as they were evacuating the Fort at Tripoli, which was captured last week by the Italians.

YOUNG LIBERAL MEETING PRESAGES SEASON OF INCREASED ACTIVITY

Organization Which Has Held Important Place in Political Affairs in Edmonton Will Elect Officers at Annual Meeting Tomorrow Evening—Brief Review of Activities of the Club When Their Services Came in Handy

Following a series of executive meetings at which the preliminary arrangements have been perfected, the annual meeting of the Young Men's Liberal club will be held in the Young Liberal club rooms, McCallum Court building, at 8 o'clock tomorrow evening. The club has attracted thousands of young men and given them their first lesson in public life and their first injection of public spirit. Practically every piece of legislation which has come on the statute books in this province, every piece of party policy, every question of party tactics or expediency, has been discussed at the meetings and in the debates of the Young Liberal club and to these debates is attributed in no small measure the clear-headed public opinion which today marks Edmonton as a city whose people know how to think and who do think clearly and independently on every public question.

The story of the Young Liberal club contains many interesting incidents reviewed now in a retrospective light are recalled as having been epoch-making and the roster of the club officers bears the names of many of the wise men of the province who have risen in the public life of the city and province and who are today the backbone of the Young Liberal club. The club has been chosen by their fellow-citizens to represent the public interest in the affairs of the city and province and to be the voice of the people in the legislative assembly.

It was as far back as 1904 that the first move was made to form a young men's association in Edmonton and on January 14, 1905, the first meeting of the Young Liberals club of Edmonton was held in the Young Liberal club rooms. The club has since that time been a force in the affairs of the city and province and will well represent the public interest in the legislative assembly. This meeting was the outcome of a series of meetings held in the Young Liberal club rooms for the purpose of organizing a well-attended club to be the voice of the people in the legislative assembly. The club has since that time been a force in the affairs of the city and province and will well represent the public interest in the legislative assembly.

WATERWAYS ACTION IN SUPREME COURT

Counsel for Royal Bank Asks for Non-Suit on Ground That Legislative Act is Ultra Vires, That It is Ineffective and That the Plaintiff Has Not Complied with Terms of Statute.

At the trial of the action brought by the province against the Royal bank and the Alberta and Great Waterways railway and the Canadian West Construction company, this morning, H. B. Bennett, K.C., M.P., appearing for the bank, applied for a non-suit on three grounds as follows:

1. The act passed at the session on 1910, declaring the Waterways monies the property of the province, was ultra vires the legislature of Alberta.

2. The act is ineffective to accomplish the purpose intended.

3. There has been no compliance by the plaintiff with the terms of the statute.

In regard to the latter ground of dismissal, Mr. Bennett said that the province had hitherto failed to give a guarantee to bondholders in accordance with the terms of the bill.

Mr. Justice Stuart reserved his decision, which will be handed down at the end of the trial.

In a specially addressed court room the trial of the famous Alberta and Great Waterways case, upon which is now engaged an array of legal talent the like of which has never before been retained upon any action at law in the Western provinces, opened before Mr. Justice Stuart in the supreme court this morning at 10 o'clock.

The action is brought by the provincial treasurer in the name of the King to secure control of \$4,000,000 of the proceeds of the sale of the bonds of the Alberta and Great Waterways railway, which were now in the hands of the company in the Royal bank. By an act introduced by Premier Sifton at the last session of the legislature, and passed by the house, this sum, and the \$1,000,000 of Waterways funds hitherto in the hands of the bank, are now in the Dominion bank, were declared a part of the general revenue fund of the province.

The bank refused to pay the cheques presented in behalf of the government and action was immediately entered to secure control of the funds. The Union and Dominion banks held the \$1,000,000 in their possession, into court, and the disposition of the

ROYALTY VISITING SCENE OF BIRTH

DOWAGER QUEEN OF ENGLAND, SISTER AND BROTHER, ARE NOW AT COPENHAGEN

(Western Associated Press.) Copenhagen, Oct. 9.—Two sisters, the Dowager Queen of England and the Dowager Queen of Denmark, and their brother, the King of Greece, are gathered here, their birthplace, for a short stay. The family party was complete when Queen Alexandra arrived on the British Royal Yacht Victoria and Albert.

Queen Alexandra, widow, mother and sister of a queen, is the only one of the royal family who is still living. She is 80 years of age and is in excellent health. She is a member of the Order of the Garter and is a patron of the Order of St. John.

The Dowager Queen of Denmark is 75 years of age and is also in excellent health. She is a member of the Order of the Dannebrog and is a patron of the Order of St. John.

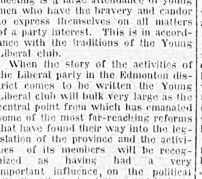

The King of Greece is 55 years of age and is also in excellent health. He is a member of the Order of the Phrygian Phrynos and is a patron of the Order of St. John.

SIX KILLED IN MISSOURI WRECK

(Western Associated Press.) Bucklin, Mo., Oct. 9.—A Burlington railroad train wrecked here this morning, killing six persons and injuring many others.

The train was carrying a large number of passengers and was traveling at a high rate of speed when it derailed. The cause of the wreck is not yet known.

The bodies of the six persons killed were recovered from the wreckage. The names of the victims are: John R. Walsh, former Chicago banker, who has been released on parole from the military prison at Fort Leavenworth.

JOHN R. WALSH, former Chicago banker, who has been released on parole from the military prison at Fort Leavenworth.

Indications Now Are That Peace Will Be Declared Shortly

GERMANY TRYING TO EFFECT AGREEMENT

Stated Italy is Willing to End Conflict, But is Also Ready to Continue—Dardanelles Can Be Blockaded at Moment's Notice—United States May Intervene.

(Western Associated Press.) St. Petersburg, Oct. 8.—The Italian authorities at Tripoli today issued a proclamation suppressing slavery. Tripoli is the only remaining port on the coast of Africa where slavery still prevails, individualizing the great efforts of Great Britain on the one side and France on the other to suppress the traffic.

General Sclavi, Italian minister of war, is reported to be in the city in conjunction with the duke of Austria, the organization of the troops for the expedition. It is expected that the arrival of the Italian troops will be a great relief to the Turkish soldiers, who are suffering from lack of food and shelter. The Italian commander promises the tribes for a few francs, which seems to show that not only are the Arabs, those at least in the vicinity of Tripoli, not ready to fight for Turkey, but also that a condition of starvation prevails among the natives. More than 20,000 of these are reported to be forced by hunger to return.

It is not known how the Turkish soldiers comprising the Garrison are off for supplies, but it is believed they are near the minimum. The attitude of the Turkish government with regard to the Italians in the Ottoman empire is viewed with some concern and the order of capitulation and the abolition of the capitulation is carried into effect may be the cause of serious complications. It is expected that Germany which now has the Italian in Turkey under its protection would object to such action.

Various reports are being received of anti-Italian riots, particularly in Sicily, where the Italian consul is said to have been threatened with assassination in his own house. Vice-Admiral Doria of Ancona left Palermo today aboard the armored cruiser, Vettor Pisani after having been in communication with the king and minister of marine.

The Spills of War. Advice received today by the state department from the embassy at Rome expressed the belief that if the Ottoman government accepts the occupation of Tripoli by the Italian fleet, the Italian government will be desirous of reaching peace as soon as possible.

The efforts of Germany to effect a settlement continue, and according to the despatch. The news of the occupation of Tripoli by the Italian fleet has been received in London. It is stated that the Italian fleet has been ordered to leave Tripoli and to return to Italy.

BODY HURLES THROUGH THE AIR

DEPENDENT MARLETTTE ENDS LIFE BY LEAPING FROM A SIXTH STORY WINDOW.

(Western Associated Press.) New York, N. Y., Oct. 9.—While a number of men and women were holding an outdoor religious meeting in Times Square, a Harlem woman, the body of a man came hurling down from the sixth story window of the hotel, and landing in front of the crowd.

The body was that of Morris Greengard, 45 years old, who ended his life. Before the body was removed, the persons who were taking part in the meeting were ordered to clear a path for the body.

The following edition for the Dominion the young liberals were very active in the formation of the club and

THE TARIFF
A LOCAL ISSUE

Grover Cleveland was author of the statement that "the tariff is a local issue," and the recent elections on both sides of the 49th indicate that Grover was a man of perspicacity. In United States the cities favored reciprocity in the hope that it would tend to provide a more reasonable cost of living while the farmers opposed the pact on the understanding that the free entry of Canadian products would injure their market. In Canada the cities opposed reciprocity in the fear that any reduction of the tariff would eventually lead to such trade freedom as would injure Canadian manufactures, while the farmers especially in the west, voted for the pact to secure a larger market.

The localness of the point of view could not have been more clearly indicated than by the results on both sides of the line.

TARIFF COMES DOWN
IN ANY EVENT

Following on Taft's trail in his trans-republic tour, Senator LaFollett, the fire-eating insurgent from Minnesota, announces his intention to swing around the circle on what looks like the preparatory hippodrome for a presidential boom and if indications go for anything the rotund incumbent of the white house is not going to have an easy time in again annexing the nomination for president.

Taft's great trouble is that he promised a reduction of the tariff and recorded a failure when the Canadian people refused to endorse the reciprocity pact.

LaFollett opposed the reciprocity pact, not on the grounds that he was a protectionist, but because, as he put it, the arrangement removed only such duties as affected the farmer without giving the farmer any compensating advantage. LaFollett voted for the farmers' free list bill and has claimed at all times to be an advocate of revision downward.

From a Canadian point of view, the only effect of Taft losing the nomination would be to make it certain that no matter whether the democrats with Woodrow Wilson or the republicans with LaFollett triumphed the tariff would come down anyway.

When the United States government reduces the tariff on things going into the U. S. A., a protectionist government in Canada would have a very difficult time getting the Canadian people to consent to raising theirs, or even to leaving it as high as it is.

BULLETIN BUNCUMBE
ON THE GAS QUESTION

The suggestion made by the Bulletin that it would be such a risky undertaking for the city to build a gas plant while there is still a possibility of natural gas being discovered in the Edmonton district that the city cannot afford to take the chance and should therefore turn it over to a company, is pure buncombe, and the Bulletin either knows it and is misrepresenting the gas situation or it does not know it and is too ignorant of the situation to be worthy of attention.

In almost every city in the east where natural gas has been in use for any great length of time it has been found necessary to keep in working order an artificial plant to guard against break-downs or failure in the flow. Cleveland is a good instance of this fact and the company which maintains the dual supply source is the company in which Cyrus S. Eaton, whom the Bulletin so heartily supported in his endeavor to secure a franchise, is interested.

There are very few natural gas fields in the world where the continuity of the flow can be relied upon. For some reason which has no scientific explanation there comes times in almost all gas fields when the gas for short periods will cease to flow. Something like this happened in the Niagara district a year ago last Christmas during one of the coldest spells that that country ever experienced, much to the discomfort of the residents.

Should natural gas be dependent in this vicinity and should the homes of Edmonton be dependent on gas for heating it can be easily seen that a sudden discontinuance of the supply or a break in the pipe line in January would be little short of a calamity.

Should Edmonton install a hydro-electric power plant up the river somewhere the city would not think of dismantling the present power plant, but would maintain it as auxiliary, and for just the same reason, should the city install an artificial gas plant and afterwards natural gas be discovered the city would not scrap the artificial plant.

The wise man who builds a house insures it.

EXTEND IMPROVEMENTS
IN RESIDENTIAL DISTRICTS

In preparing the estimates for the coming year the city officials will require to lay out plans for development on a very much larger scale than ever before if Edmonton is to be made a comfortable city in which to live.

At the present time rents in Edmonton for household property are unreasonably high; in fact it is almost impossible to rent a house on any terms.

At the same time, when the prospective householder reviews the situation with a view to building he finds that the area which is served with sewer, water, light and phone is very restricted and that if he is to build at all he must either do without these or pay a very handsome price for inside property on which to build.

The only solution is to extend the improvements. The city could spend several millions and still not be very far in advance of the requirements.

MAIL SERVICE S
FASTER BY 18 HOURS

NEW C.P.R. TRAIN CLIPS CONSIDERABLE OFF SCHEDULE EN ROUTE EAST VIA CALGARY

Strathcona, Oct. 9.—Not the least among advantages which Strathcona reaps through the operation of a direct train to Winnipeg by way of the new branch line of the C.P.R. is the shortened mail service between the two points. While not yet on the shortest line to the Twin Cities, the new C. P. R. train clips many hours off the run that was until recently made by way of Calgary and this improved service results in a postal connection with the east some eighteen hours earlier than that provided prior to this summer. Since the inauguration of this service a change has been made in the mail collection of the city. Instead of the collection being made at midnight as formerly, the carrier completes his rounds by nine o'clock in the evening, thereby permitting the day's mail to be despatched eastward on the through flyer which leaves at ten o'clock every evening. The mail leaving here at that hour arrives in Winnipeg thirty-four hours later and this gain of eighteen hours over the former route via Calgary gives, of course, just that much better service with all the eastern mails. The advantage of this improved service is scarcely to be estimated and it is one naturally appreciated in every department of business here.

A summer's trial has firmly established the popularity of this new daily train to Winnipeg. Passenger traffic has steadily increased from this point and it has at once become a train of recognized value for the accommodation of immigrants to this section of the province. From Saskatoon eastward, the trains are fast to accommodate the traffic.

The only handicap which the new service lingers under at present is the enforced course of travel by the roundabout way of We-Askin, before the main line east of Hardisty is reached. With the steel some direct northwesterly to this city from Hardisty such as is proposed, the new route would be nearly as short as the C.P.R. line to the "Peg." It is understood that this cut-off extension will be made by the C.P.R. next year in the expectation of equaling the most rapid service of the rival roads to the east. Fast Hardisty's ballasting crews have continued operations this summer until the roadbed is fast becoming one of the best in the west.

NewsNorthern
Investment
Agency
(Limited.)

The general feeling regarding the real estate situation of Edmonton is optimistic. The outside investor is interested, and we predict that the latter part of 1911 and the year 1912 will be remarkable as a period of large deals.

We are believers in Edmonton inside property and for this reason we confine our work mostly to business and residential property located within the city's limits. Let us advise you regarding your investment.

Following are a few good buys:

BUSINESS.
 Lot 58, E. 1/2 Sec. 17. This property is located in the heart of the city; it has a frontage of 200 feet with a line in the rear. Terms: \$25,000. Price: \$25,000.
 Lot 65, Block 5. This lot is located on Jasper Avenue in the best future retail section of this city. This is the cheapest lot in this locality. Terms: Price per front foot: \$1150.
 Lot on First Street, reverse bearing. Price per front foot: \$1500.
 Easy terms. This is one of the best buys in the city.

RESIDENTIAL PROPERTIES.
 Two lots in Englewood, Block 17. Terms: Price: \$1700.
 Lot 9, Block 4, Glendon. Price: \$325 cash bal. 1-2 years at 8 p. c.
 Lots 3 to 9, inclusive, block 39, Norwood. This is on a boulevard street, near street car line, and has water, light and sewer. Price \$6000 cash for the lot.
 \$2000 CASH buys a choice quarter-section, 6 miles from Bowditch and 4 miles from Okotoks. This is unproved and is one of the choicest quarter sections in that locality. The rich place is the man desiring a choice farm.

FORMER CHICAGO
BANKER RELEASED

JOHN R. WALSH, SERVING A FIVE-YEAR SENTENCE AT FORT LEAVENWORTH OUT ON PAROLE.

(Special to the Capital.)

Fort Leavenworth, Oct. 9.—At their sitting here today the Parole board ordered that John R. Walsh, former Chicago banker, be released from the Military Prison at Fort Leavenworth, one of the restrictions being that he return to his former home in Illinois and not leave that state without the written consent of the secretary of the parole board.

Walsh was sent up in 1905, on a charge of having been primarily responsible for the wrecking of the First National Bank of Chicago, being given a five-year term. He has now served a little over three years and having been a model prisoner, was eligible for parole. During his confinement he has acted considerably and has contracted a disease which is saving his strength and in the opinion of the prison surgeon will not last the year.

MUNICIPAL GAS BYLAW.

A conference will be held this evening between the city commissioners, Engineer Laidlaw and Sclafior Brown, for the purpose of determining upon the procedure to be followed in the preparation of a bylaw for the municipal gas. An expert will probably be appointed, an estimate prepared of the cost of the preliminary work of installation, and the bylaw submitted within the next few weeks.

LIVERPOOL LIVE STOCK

Liverpool, Oct. 9.—John Rogers & Co., Liverpool, cable today that there was a very slow trade in the Birkhead market and whilst the price of good cattle was well maintained, rough beasts sold for less money, the full price being: Steers, 12 1/2 to 13 1/2, 12 1/2 to 13 1/2, 12 1/2 to 13 1/2, and 12 to 13 1/2 per lb.

VANCOUVER DENTIST DEAD

Vancouver, Oct. 9.—D. R. W. Emmons, a well-known dentist, is dead. He lived formerly in Winnipeg and was a brother-in-law of Dr. A. S. Monroe also well known in Prairie City.

STRATHCONA LOCALS

General superintendent McMillan of the C.P.R. and Divisional Superintendent Bostock of Vancouver, were in the city for a short time yesterday afternoon while on their way eastward over the Winnipeg line. The party, which included several ladies, arrived in a private car on the afternoon train from Calgary and left on the Winnipeg express at 10 o'clock. No significance was attached to the visit of the officials here.

ple of the Metropolitan church will entertain the students of the Alberta colleges this evening in the basement of the church.

Mrs. Robert Purvis has been removed to the hospital here, suffering, it is feared, with appendicitis. The marriage of Mr. and Mrs. Purvis was solemnized only last week in Calgary.

Altman and Mrs. J. G. Tipton returned Saturday from a short visit with friends at Okla. The judge took the opportunity while away to do some staking and returned with a good bag of prairie chicken as a result.

Mrs. Stinchcomb of Leduc is visiting in the city the guest of Mrs. J. W. Tipton.

Mr. and Mrs. A. Bissett, who have resided for the past year in Leduc, will shortly remove to this city where they will have their home.

An effort is being made by the public works department of the city to get the streets in better shape before winter frosts set in. Not for years have the roads been worse throughout the city than they have this year and the constant rains made it almost impossible to keep streets heavily trafficked in even fairly good condition.

It is now hoped that the rains will over and the leveling process may under way will not be again interrupted with this fall with mud.

REAL ESTATE - INSURANCE

U.S. SUPREME COURT FAGES BUSY TERM

CASE OF JAMES PATTEN, CHARGED WITH VIOLATING SHERMAN LAW, COMES UP

(Special to the Capital)

Washington, D. C., Oct. 9.—After a four months' vacation the supreme court of the United States will convene today for the term of 1911-12. The docket is crowded with 281 cases, as compared with 626 cases a year ago at this time. No cases of anythink the great importance with the Standard Oil and Tobacco dissolution suits is on the docket, but there are a number of important and interesting matters that will come before the court for adjudication.

The court is expected to take up first of all the numerous cases involving the activity of State railroad commissions. There are more than fifty cases of this

kind to be decided. As all of them are correlated, it is probable the court will hear them as nearly together as possible. There are thirty-six rate cases from Missouri alone, three from Minnesota, including that decided by Judge Sanborn, which agitated the governors' conference of Spring Lake recently, and several from Oklahoma and Kentucky. The opinions of the supreme tribunal in these cases probably will be definitely the constitutional limits of state railroad commissions and circumscribe the powers they may exercise in the way of fixing the rates of common carriers in interstate traffic.

Several important cases have come over from the Interstate Commerce commission. The government questions the right of railroads to make connections to elevators, holding that it is rebating. The St. Louis Terminal company, owning two bridges over the Mississippi river, is being brought to the bar on the question of its being a monopoly in restraint of trade.

Another issue that will be fought out early in the term is whether the stock yards in the large cities are common

carriers within the meaning of the interstate commerce laws. A case against the Baltimore and Ohio Southwestern road is expected to lead to a decision as to whether a railroad may transport sheep through a state into another state when the state through which the sheep pass is under quarantine. The battle for the initiative and referendum, the foundation stone of the Oregon primary system, will be fought before the court early in November. In view of the fact that numerous states already have followed the example of Oregon in adopting the initiative and referendum and others are preparing to do so, the decision in this case will have far-reaching consequences. The matter comes to the supreme court as an appeal in a suit brought by the Pacific States Telephone and Telegraph company against the State of Oregon to test the constitutionality of the initiative and referendum law.

Important Cases.

Among the most important cases on the docket are several that were held over from last term. Included in the list are the cases involving the validity of the indictment of Charles F. Mundy and others, growing out of the so-called Stracey coal-lump claims in Alaska, and of the indictment of James A. Patten and others on charges of violating the Sherman anti-trust law in "cornering" the cotton market. The review of the trial of Frederick A. Hayte and others on charges of land frauds on the Pacific coast will constitute another important case.

The court also will hear arguments in the Oklahoma land fraud cases, which are four in number and are typical of 201 suit brought by the government to invalidate 20,000 or more conveyances by Indians, of titles to real estate, which the government claims were fraudulent conveyances.

Labor has an important case from Louisiana in which an employer is being prosecuted for permitting a laborer to work more than eight hours in one day. Also of importance to the labor world is the case brought to test the constitutionality of the federal employer's liability act of 1908.

The court has been asked to interpret a treaty between the United States and Italy. The case in question involves the right of an Italian consul to take charge of the estate of an Italian subject dying in this country—California—contrary to local laws.

Not the least of the problems before the supreme court is the necessity of relieving the congestion which threatens to clog the administration of justice if measures are not taken by congress for its relief. As before stated, there are now more than 200 cases on the docket, with the probability that fully 300 additional cases will be filed before the end of the term. The average number of cases that can be decided by the court in a year is about 100, and this is somewhat high. It is apparent, therefore, that the court is two years behind in its work, and will the vitally fall back still further if its docket is not lightened.

RUSSIA ON VERGE OF A REVOLUTION

SOCIALISTIC ELEMENTS DECIDE TO JOIN FORCES FOR PURPOSE OF SCATTERING DOCTRINE

(Globe Cable Service)

St. Petersburg, Sept. 16.—It is currently reported that Russia is to be the scene of another campaign of revolutionary agitation, and perhaps even something worse. All the revolutionary processes of other countries are said by the well-known writer, M. Menshevik, to play the role of magnetic induction as regards Russia. The successful revolution in Constantinople and London, which may have opened something to the lessons of the Russian revolutionary movement of 1905, are supposed to have had the effect, later also, of stimulating Russian agitators to further action.

In any case, it is said that two waves of revolutionary criminality are about to sweep across Russia, one from the east and the other from the west. While Russian Socialistic emigrants and Anarchists are flocking in from the European West, a corresponding influx of discharged and runaway political prisoners is taking place from Eastern Siberia.

At the recent conference, held in Paris, of some thirty Russian Socialistic revolutionary leaders from all countries, it was decided to unite all parties for reinforcing their propaganda among the Russian masses, especially among the labor proletariat in the towns, as it was shown that this class together with the troops, were the elements which gained success for the revolutions in Constantinople and London. It was also decided to adopt revolutionary propaganda, otherwise robbery under arms, to fill the ranks of the revolutionary forces.

A similar conference, with similar aims, was held in Paris by the Russian social democrats.

FINNISH DIET SAYS LAW IS ILLEGAL

REFUSE TO TURN PILOT AND LIGHTHOUSE SERVICE OVER TO THE RUSSIANS

(Globe Cable Service)

Helsinki, Sept. 16.—The decision of the Finnish council of ministers to charge the minister of marine and minister of justice with the drafting of a bill on the transfer of the Finnish pilot and lighthouse service for the control of the Russian ministry of Marine is calculated to cause some anxiety to all seafaring nations carrying on trade with the grand duchy. The matter will be placed before the Russian legislature, in accordance with the provisions of the law of June 29, 1910, on Imperial legislation, and if it is passed, the proposed law will give rise to considerable confusion.

The Finnish diet has declared that it cannot consider the law on Imperial legislation, which was illegally enacted, as binding on the grand duchy, and the same holds good in regard to any law passed under it.

The Russification of the pilot and lighthouse department was contemplated some eighteen months ago, and it was then declared by almost every one on the staff of that department that they would sooner resign their posts than be parties to the breach of the constitution involved by the proposed measure. It is easy to understand what a danger it would entail to every craft navigating the difficult Finnish waters if new people, not accustomed by long experience in marking out every spring the winding passages between skerries and drunken rocks, were to take the place of those born and bred on the spot. The general feeling is that the Finnish pilot service, to attain the highest possible degree of efficiency, should remain under Finnish control.

HEAD HUNTERS SLAY EUROPEANS

NUMBER OF MISSIONARIES AND THEIR FAMILIES KILLED AND EATEN BY CANNIBALS

(Globe Cable Service)

Sydney, N. S. W., Oct. 8.—News has reached Sydney of the murder of several Europeans in the South Sea Islands, some of the victims being cooked and eaten by the cannibals. The Rev. Frederick Daniels, a Queensland missionary, was killed in the act of saving a Sunday service in the open air when suddenly a shot was fired by a native who was concealed in the scrub. The bullet struck the missionary in the breast. He fell backwards, murmured, "Lord, save me," and then died.

It is not supposed that Mr. Daniels was shot because he was a missionary. "The natives," says an officer of the mission, "are taking a pride in killing and eating the Europeans. It is a special honor. Mr. Daniels is the first missionary to be killed in the Solomon Islands."

From New Caledonia comes an account of the butchering of a family of three—father, mother and child. The name of the victims was Devaux. There is no clue to the perpetrators of the crime. The bodies had been treated with great brutality.

The French warship Kersaint has brought news of an outrage at Maewo, one of the northern islands of the New Hebrides group. Two French residents, named Gerolamo and Balde, having been killed by natives and afterwards eaten.

HOUSE SPECIAL

If you want a "classy" home, here it is! This house is more than fully modern.

On Sixth street, south of Jasper, 7 rooms, full basement, 3 fireplaces, including one electric fireplace, hot and cold water both soft and hard, toilet in basement and upstairs, coats room outside, 2 inside, brand new. Let us tell you all its good points—a dandy. \$6200

LIMELIGHT AGAIN FOR SUGAR TRUST

SEVERAL BRANCHES HAVE BEEN FORCED TO CLOSE DOWN OWING TO STRIKES

(Globe Cable Service)

Melbourne, Oct. 8.—Australia's great economic incubator, the sugar trust, is at last receiving the attention of all parties in the Commonwealth. The cane cutters' strike and the failure of the trust company—the Colonial Sugar Trading Co., better known as the "C.S.T.C."—to concede the reasonable demands of \$2.50 a week and an eight hours day, have forced drastic proposals by the federal government. It is a task of abolishing the duty and the bounty on "white grown" sugar and bringing the trust to its knees by flooding the market with "black grown" sugar.

The Labor party is pushing its nationalization propaganda in circum-

NEWS OF THE CITY

The graduate nurses of Edmonton are holding a dance in the separate school hall on October 20.

Material for advertising literature descriptive of the Canadian Northwest and the opportunities the country offers to the settler and the investor, for use by the Dominion government immigration department, is being gathered up by T. A. Brown of the immigration department, in Edmonton today.

He arrived in the city last evening over the G.T.P. from Saskatoon and this morning visited the immigration office on First street and the board of trade rooms. He will spend a few days in Edmonton before leaving to visit other Alberta centers.

The opening dance of a series to be held under the auspices of the Edmonton Irish association, on Wednesday evening, the 11th instant, will take place Tuesday evening, the 10th instant, in the separate school hall, in the ladies' place take notice.

"SHOULD BACHELORS BE TAXED?"

Taking the view that this debatable subject is one which requires earnest consideration, the executive of the Edmonton Irish association, on Wednesday evening, the 11th instant, will bring an resolution that in their opinion the association should place it self on record as being in favor of the government of this province following the example of some of the foremost countries of the world, notably France, in placing a special tax on unmarried men over a certain age.

The subject being one which affects the community at large, members will be at liberty to have their friends attend; the meeting being open after 9 o'clock.

Following the success attending last season's programme, the committee have arranged entertaining features for the coming meetings of the association.

October 11—Debate, "Should Bachelors be Taxed?"

October 25—Address by G. W. Mc-

James. Mr. McMeas' well-known ability on the platform is sufficient guarantee of an interesting evening.

Nov. 22—Magazine night. The third volume of the Association Magazine will be published under the editorship of Mr. Charles J. Broadrick, to whom contributions should be sent. Judging by the reception accorded previous issues of this sheet, it has become an established institution covering association life.

Dec. 12th is set aside for the nomination of officers and Dec. 27 for their election to serve during the coming year.

LIGHT VOTE ON THE MONEY BYLAWS

Fewer than one hundred voters had cast their ballots at noon today on the two bylaws which have been presented for the approval of the ratepayers, and the indications are that the poll will be the lightest that has been recorded in the city since incorporation. The greatest indifference to the issues seems to prevail. At the city hall only thirteen ratepayers had recorded their votes at half-past twelve.

The first of the bylaws, No. 371, provides for the expenditure of \$31,000 for the purpose of property from Marjorie street to Broadrick street, to provide a suitable grade on this side of the Saskatchewan to the new east end bridge. The second, No. 358, provides for the raising by debentures of the sum of \$10,000 for the construction of a children's shelter in accordance with the terms of the act carried at the last session of the legislature. Whether this latter bylaw carries the day will be decided at the meeting to undertake the construction of the building.

TOO LATE FOR CLASSIFICATION.

LYNCH'S ORCHESTRA WILL PLAY for pupils and social dance every Wednesday night at McMeas hall, 225

LOST—ON STREET CAR THURSDAY night about 10 o'clock, a purse containing \$20; street car tickets, etc. Liberal reward if returned to Capital office. 252

FREE LECTURE.

Prof. Alexander will continue his very interesting and instructive series of lectures for a few evenings longer at the Majestic theatre, giving free lectures Monday, Tuesday and Wednesday evenings, while on Thursday, he gives one which will appeal to everybody, the subject being "How to Read Character, by Handshake, Walk, Eyes, Nose, mouth and Chin."

SHOULD REPAIR FILTRATION PLANT

ENGINEER RECOMMENDS THAT WORK BE CARRIED ON DURING THE WINTER.

Repairs to the filter plant should be undertaken during the present winter, and must be in the opinion of Engineer Latornell, if the city is not to experience similar difficulties in 1912 as those which have been passed through this year.

In a lengthy report to the commissioners the engineer, who was given instructions to take over one of the filter units on August 21, submitted the result of his investigations. He stated that some 210 strainers of the unit which he examined were beat out of shape, that 310 were injured, all that were clogged with sand and wood and grass, and after a detailed description of his work on the plant, he goes on to suggest that a separate waste water pump should be put in to make possible the washing of the filters without the rest of the system being disturbed. At the present time the washing process involves disarrangement of the plant in every instance.

In conclusion the engineer says: "I would recommend that these repairs be made this winter or at least before the ice breaks up next spring, the present tanks are made of wood and the seams between the tanks are caulked with oakum, and when the vacuum below the sand beds increases to a certain amount, air is drawn in which gradually causes the tanks to become air locked. If the tanks had caulked with iron, this I think would not happen to the same extent, but an uncertain thing as tanks at present constructed would close up without this caulked."

In any additional tanks that may be installed this trouble should be taken into consideration and the tanks constructed so as to avoid its repetition. The difficulty with the present tanks is that they must stand idle during winter and consequently are affected by the weather to such an extent that considerable work is necessary to get them in condition in the spring.

CITIES MUST HOLD REGULAR ELECTIONS

IF THE AMALGAMATION BILL IS NOT PASSED BY LEGISLATURE BEFORE DECEMBER 4

Unless the bill for the amalgamation of the two cities is carried in the legislature and receives the royal assent before the first Monday in December, the date set in the charter for the municipal nominations, the usual election procedure must be gone through in Edmonton and Strathcona, and separate councils elected. The charter provides for the holding of the elections at specific times in both cities, and there is no power short of the legislature, which can alter the dates. "Interlocking" councils must be elected in both cities, councils which will go out of existence shortly after the passage of the amalgamation bill, and one duty will probably consist in providing for the elections over winter.

Whether it will be possible to advance the Twin Cities' bill early in the legislature, and avoid the unnecessary expense of the double elections, it is not possible to determine, but it seems quite possible that the bill may be delayed until after municipal nomination day. The bill will probably provide for the holding of an election throughout the new, greater Edmonton, at the end of January or the beginning of February.

THE CITIZEN'S FORECAST.

Ottawa, Oct. 9.—The Evening Citizen says the Borden cabinet will be as follows: Nova Scotia, R. L. Borden; New Brunswick, Premier Hazen; Quebec, C. J. Doherty; G. R. Perley, P. D. Monk, L. P. Pelletier; Ontario, Frank Coleman; Geo. E. Foster, Andrew Broder; W. T. White and W. S. Middleton; Bore; Heche; Saskatchewan, R. Bogue; Alberta, Senator Lougheed; British Columbia, Martin Burrell.

LANDING LINE CREDIT TO C.N.R.

WORK IS PROGRESSING VERY FAVORABLY AND STEEL WILL REACH TOWN SOON

Strathcona, Oct. 9.—In railway circles the Canadian Northern has never been famous for the excellence of its road building, it being a matter of general knowledge that new lines of the system have usually been perfect to a large extent after the inauguration of the train service. However, there appears to be an exception under way in the line now reaching northward from Edmonton to the Athabasca landing. A former merchant of this city, Mr. Ross who has just returned from a trip in the direction of the Landing, declares that the engineers in charge of the new road under construction to the north are having an admirable grade thrown up along the final survey. The twists and turns of the route proposed first have all been cut off abruptly in this new right of way and the result is apparent in a roadbed which will insure a first-class line by the time train service commences next year.

Work on the Landing line is progressing very satisfactorily according to Mr. Ross and steel should reach the northern terminal within the next few months.

FOREST HEIGHTS

Directly opposite the new East End Bridge now under construction. Every lot high and dry; inside new City Limits. Will rapidly increase in value when bridge is completed next summer.

SCHOOL RECORD BEATEN BY 200

ENROLLMENT OF PUPILS TO DATE HAS PASSED THE 1000 MARK—NEW TEACHERS

Strathcona, Oct. 9.—The school trustees of the city are a board to whom the creation of new records in civic educational endeavor occasions but little surprise, so frequently have these new symbols of progress been presented for their consideration. At the regular semi-monthly meeting of the trustees last week, Principal McKee read off the latest record in the matter of enrollment, a record by the way which has never been approached in the past history of the schools. For the month of September, the principal was able to report a total registration of 924 pupils, an increase of 200 over the corresponding month of last year. For the opening month of the term this enrollment is considered excellent and the attendance during the remaining months of the year will probably be much heavier.

The board, Friday night, appointed a faculty, by teacher for the new Bathurst school across Mill creek, Miss Gorry, late of Holden, being the instructor selected for the position. This new addition to the teaching staff increases the force under Principal McKee to 27 and before the new year, this number will be brought up to 30 by the engagement of two teachers for the new school on the Wye road.

FOUR KILLED.

(Western Associated Press.)
New York, Oct. 9.—Four were killed and six injured today by an explosion of dynamite fifty feet under ground in a shaft under construction, where they were working on a prospect for Caledonia water system.
